MEMORANDUM FOR: the record: Subj. Copy nr. 69, Fed. Std. 222.	STATINTL
copy nr. 69 had been lent to directly (without a receipt) to avoid having to run it through the document control channels. The latter action would have aroused questions as to the contract, sponser, etc.  The attached classified matter receipt cannot be used as (1) it would put me in the position of receiving something from them that I can not prove they received from me, and (2) would put my name, "company", etc. in their file.
